⇒ **Adaptability** – Quickly learning new tools, adapting to changing business needs, and handling large datasets.
⇒ **Time Management** – Meeting deadlines for reports, dashboards, and ad-hoc analyses.

PROFILE SUMMARY

Motivated and detail-oriented Web Developer with hands-on experience in building responsive and visually appealing websites using HTML, CSS, and JavaScript. Skilled in creating clean, user-friendly interfaces and optimizing layouts for various devices. Passionate about front-end development and continuously learning to improve coding practices and design techniques. Eager to contribute to real-world projects and grow in a collaborative development environment.

PROJECTS

Portfolio Website

Designed and developed a personal portfolio website using HTML, CSS, and JavaScript to showcase web development projects and skills. The site features a responsive design for different screen sizes, a clean layout, and smooth navigation, enhancing overall user experience.

To-Do List App

Created a dynamic task management application with HTML, CSS, and JavaScript that allows users to add, delete, and mark tasks as completed. The app uses real-time DOM manipulation and features an intuitive, minimalist user interface.

Calculator

Developed a functional calculator using HTML, CSS, and JavaScript that performs basic arithmetic operations such as addition, subtraction, multiplication, and division. Focused on real-time input handling, responsive design, and smooth button interactions to ensure a user-friendly experience.

Quiz Application

Built an interactive quiz game using HTML, CSS, and JavaScript, featuring multiple-choice questions and a scoring system. JavaScript logic handles question navigation and score calculation, while the UI is styled to ensure an engaging user experience.
